## Accuchex supports professional services providers

If you are a CPA, TPA, bookkeeping service, or other service provider dealing with clients' payrolls, you'll love how **Time2Pay™** gives you convenient online, secure access to complete payroll information. Clients expect you to understand their payrolls. **Time2Pay™** puts them at your fingertips.

**Time2Pay™** supports any type and number of security roles to give you access to each client's payroll with the appropriate degree of responsibility and control.

You can manage the entire **Time2Pay™** payroll process for a client, from time clock data import to tax filing. Or you can take a more limited role to review reports and generate journal entries.

It's your choice - and your client's. Either way, complete audit trails track who changed what and when.

**Time2Pay™** payroll delivers everything - edits and reports - to your office via the Web. There are no special equipment requirements, no software installation or upgrade.
